Land Rover Transfer Box Front Drive Flange PCD Measurements

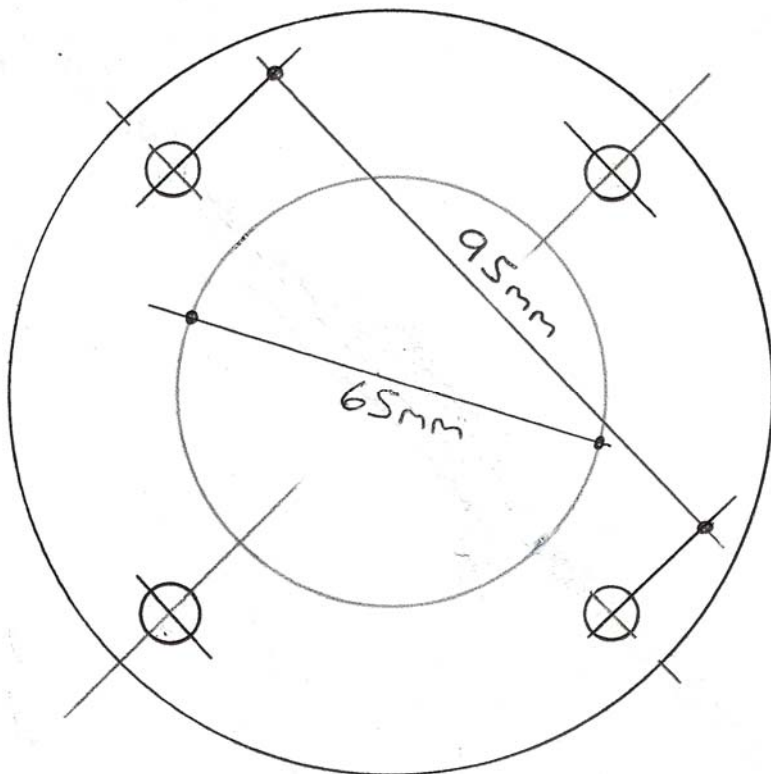

Defender
Discovery 1
Range Rover Classic

Flange PCD 79.4mm

This fitment is both the Transfer Box Flanges and Differential Flanges on the above vehicles and is what all our Wide Angle and Double Carden Prop Shafts Fit.

This means our Double Carden Prop Shafts are a direct fit and do not require conversion to the Discovery 2 TD5 front Transfer Box out put flange.

Discovery 2 TD5

Flange PCD 95mm

This Fitment is for a Discovery 2 type Double Carden front Transfer Box out put Flange, many cheaper Double Carden Prop Shafts require conversion of the front Transfer Box Flange to this type.
